

Cardiac Risk in the Young

Every week 12 apparently 'fit and healthy' young people die in the UK of undiagnosed heart conditions

CRY's APPEAL

"Run for CRY and help to save young lives"

Your support will help us to fund:

- The CRY Centre for Sports Cardiology
 - CRY's heart screening programme
 - Medical research into Sudden Death Syndrome and the athlete's heart
 - The CRY Centre for Cardiac Pathology
- & help us raise awareness of Cardiac Risk in the Young and support those affected

"Youngsters are dying needlessly. We can and must change things."

Sir Ian Botham OBE - Honorary President of CRY
